Subject: RE: Proposed Source Control Decision - Oregon Beverage Recycling Cooperative

All

This is a head's up that DEQ will soon submit a proposed source control decision for stormwater at the Oregon Beverage Recycling Cooperative, ECSI #4015. The site is located at 3900 NW Yeon Ave. in Portland. DEQ issued a no further action for site in 2004. Portland Harbor stormwater site discovery work caused DEQ to reopen the site for the stormwater pathway. DEQ is concluding that the site stormwater control measures have effectively controlled the stormwater-related contaminants, and the property does not appear to be a current or reasonably likely future source of contamination to the river.

DEQ will send a second e-mail when we submit the draft source control decision to EPA and offer you an opportunity to review & comment. We expect to submit the proposed action to EPA in the next two weeks and will ask EPA for a 30-day review turn-around.
